T-Print für SCHNEID-XX Regler

Order number: 150.13862

Order code: T-Print für SCHNEID-XX Regler mit SCHNEID FSS

Overview:

With Schneider data bus interface, M-Bus interface, internal controller communication interface, leak warning interface and interface for the additional boards SCHNEID-4Relais or SCHNEID-5TEMP.

- 1 standard bus for controller networking and system visualization via WinMiocs 70 or SinVIS
2. Bus interface for recording consumption data (e.g. Meter)

Depending on the application, a corresponding bus module can be fitted for each of the two bus interfaces.

The following bus modules are available:

- RS232 bus module
- RS485 bus module
- RS422 bus module
- MBUS master bus module
- MBUS slave bus module
- USB bus module
- TCP/IP Ethernet bus module

Terminal diagram:

Interface connectors:

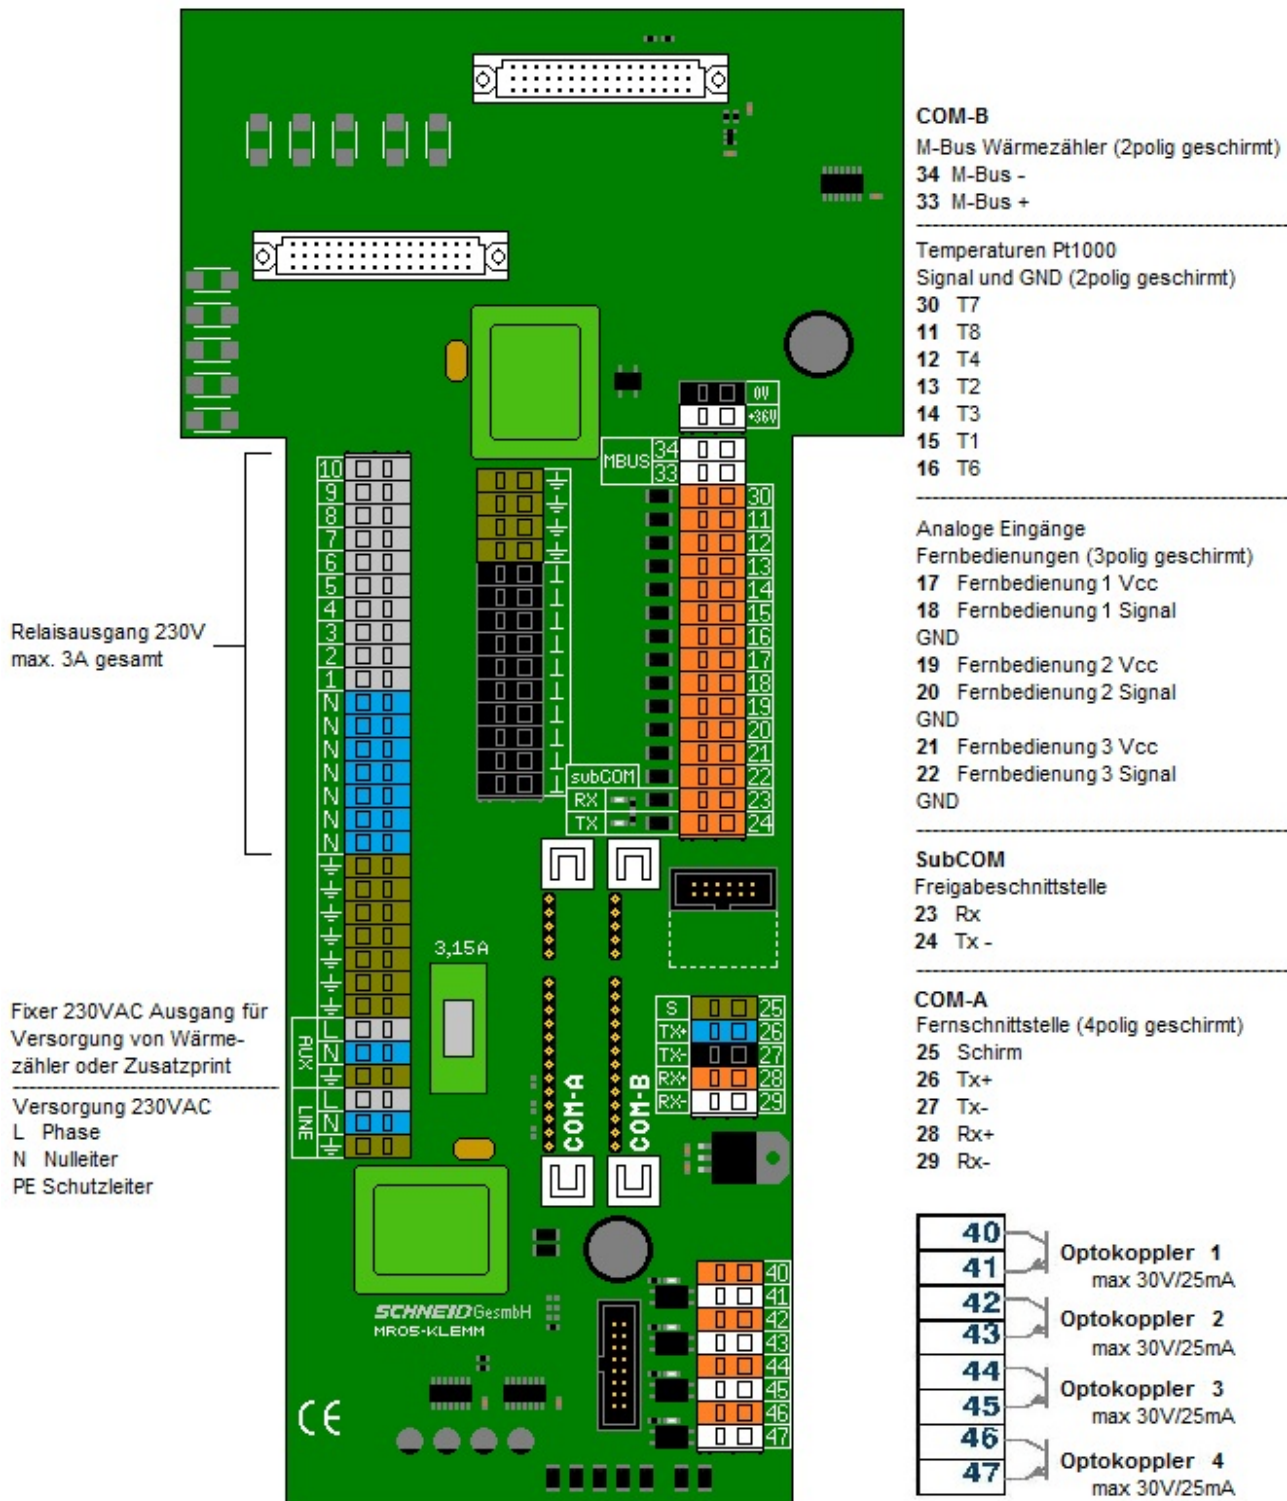

There are 2 slots for communication plug-in cards on the module. The COM-A and COM-B slots are routed to terminals.

Links:

- COM-A to terminals 26-29
- COM-B to terminals 33-34

Depending on the interface card, the terminals have different assignments. These are described on the individual cards
