

Connection diagram

Connections 230V

L Connection 230VAC
L Additional connection 230VAC (continuation to further module)
L auxiliary port (continuation relay outputs)
N Neutral
N Neutral
PE
PE

1A Output 1 - potential-free
1B

2A Output 2 - potential-free
2B

3A Output 3 - potential-free
3B

Signal connections

GND signal ground
TMP heating circuit flow temperature sensor

GND signal ground
FBT room temperature sensor
FBS remote control signal line
VCC supply line remote control
12VDC output max 100mA
