

# Remote control FBR6 SCHNEID

## Remote control FBR6 SCHNEID with room sensor for module regulator series MR06, MR07, MR08, MR12

Order number:	120.09577
Order code:	Fernbedienung FBR6 SCHNEID mit Raumfühler

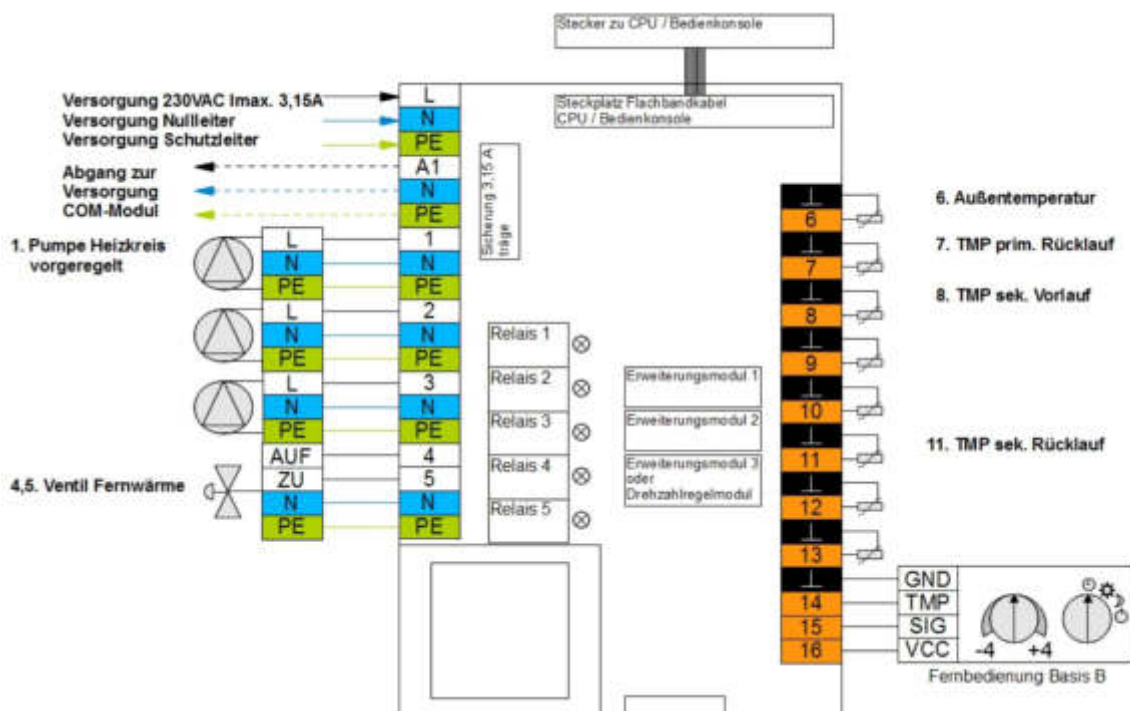

### Overview

The remote control FBR6 SCHNEID is compatible with all SCHNEID control devices of the MODUL series (except MR05 T-Print).

An OFF / DAY / NIGHT / AUTOMATIC preselection switch is provided for preselecting the operating mode. A setting potentiometer with a range of plus / minus four degrees is available to change the target room temperature. A room sensor is installed in the remote control, which can be used to use various heating control programs and to optimize the SCHNEID control unit.
